600.4 Determining the Food Supplement Program Allotment

A. Determine a household's monthly food supplement allotment by using the Basis of Issuance Tables:

S

1. Calculate the household's net monthly income.
2. Compare the household's net monthly income to the maximum net monthly income standard, Column B below. Households that are not categorically eligible for food supplements will have net monthly incomes that are lower than or equal to the amounts shown in Column B.
3. Find the allotment by reading in the Basis of Issuance Tables, down to the appropriate income and across to the appropriate household size.

NOTE: A household that is categorically eligible is entitled to any allotment shown in the appropriate column on the tables. Persons in household sizes of one or two and categorically eligible are eligible for a benefit of **\$15**, even if the tables do not show a benefit amount at their net income levels.
